

CIS 500 Introductory Questions

Please answer the following questions. (Use a separate sheet of paper, if necessary.)

1. Name:
2. By what name do you prefer to be called?
3. Hometown:
4. Expected graduation date:
5. Plans after graduation (job in U.S., job back home, Ph.D., etc.):
6. Tell me something interesting about yourself. (This will help me remember your name.)
7. Do you currently have a job? If so, where and how many hours per week?
8. What program are you in? (ACS, Data Science, HBIN, etc.)
9. What other courses are you taking this semester?

10. What was your undergrad major?

11. What is your preferred OS (Windows, MacOS, Linux?)

12. Describe your previous programming experience. (“None” is an acceptable answer.)

- Give the name of the course (as best you can remember)
 - Or, if your only experience is an online tutorial like Udemy, list that.
 - What language was the course taught in?
- Describe the types of programs you wrote.
- Describe the most complex computer program you have written.
- What languages have you used before? (“None” is an acceptable answer)
